

**REMARKS**

All the original claims have been canceled. All of the claims added herein are method claims. Each of the method claims includes the following limitation:

"...positioning the framework and the mirrors at a distance from and in front of the upper part of the body of a person having the upper part of his body substantially upright and holding his hands in a position in front of the upper part of his body, ..."

In so far as the prior rejection based on the Phillips British patent reference might be applied to the claims added herein, it is respectively noted that there is no suggestion, much less a showing in the reference of any method that functions with a person having the upper part of body upright. More specifically, much of the prior art cited deals with recumbent or supine persons.

Accordingly it is submitted that this application is in condition for allowance and such action is requested.

Should a petition for an Extension of Time be necessary for the timely reply to the outstanding office action (or such a petition has been made and an additional extension is necessary) petition is hereby made and the Commissioner is authorized to charge any fees (including additional claim fees) to Deposit Account Number 19-2635 under Attorney Docket Number BJER103.

Respectfully submitted,

Robert S. Smith
